Ms. Diana Messina  
U.S. Environmental Protection Agency  
Region 2  
Edison, New Jersey 08817

Dear Diana:

MXR Innovation in Rochester, New York, EPA I.D. #NYD980531768 was assigned to FIT for completion of a Preliminary Assessment under TDD #02-8702-11.

A search of EPA Files gave no information other than the site was located on Newbury Street in Rochester. Tax Files showed no record of MXR Innovation ever owning the building in question. Conversations with the Rochester Department of Health & the City Code Violations Department revealed no complaints or recorded violations against MXR. Files at the New York Department of Environmental Conservation also had no information on the site.

An off-site reconnaissance, performed by NUS personnel on February 24, 1987, revealed that the building in question is currently occupied by Rochester Container Corp., but there was no indication of hazardous substance storage or dumping.

The information available is insufficient to justify completion of the four-page Preliminary Assessment Form (EPA Form 2070-12).

Very truly yours,

Elizabeth Torpey
